Hon. J. W. Rott of Perryville has announced as a candidate for the democratic nomination for congress from the Thirteenth district.

Overs in Wayne county a proposition to bond the county in the sum of \$200,000 for road improvement purposes is before the people. From the tone of the papers, considerable interest is being manifested in the question. The election will be held on April 20. The good roads movement is gathering strength, but there is no way to get the roads without money, and the proposition is being worked out by the best citizens and financiers in the state who believe that bonds furnish the best way. St. Louis county took the lead a short time ago by voting a bond issue of \$3,000,000 and other counties are taking it up.

Dear Sirs—You will find inclosed the dollar to pay for the good cut Press another year. My family and self can't do without our home paper. The weekly visits of THE PRESS are like getting letters from friends. This leaves us all enjoying good health.

The farmers are very busy now putting in their crops. Alfalfa, oats and wheat are looking fine. The nights are very cool here, but the days are warm and pleasant.

Give our dear old friends our best regards, and we thank you ever so much for your kindness.

I am very respectfully yours,

T. N. McKelvey
(Many thanks for the words of encouragement. If it were not for the expressions of appreciation of friends like this, this newspaper man would certainly have a rocky road.—Ed.)

We Have the Cows

Southeast Missouri has so many natural advantages that one may never have thought about the possibilities of dairying. We not only have mild winters, abundant feed, a long pasture season, good markets, but we have some wonderful cows.

Official tests have just been completed at Sikeston, Mo., in which one cow two years old produced in thirty days 539 pounds of butter fat. If this had been made into butter, it would be 639 pounds, or 2½ pounds of butter a day. During this test this cow gave 1830 pounds of milk, or an average of 7½ gallons of milk a day for thirty days.

Mother cow, Konigen Pauline Royal 130850, in twenty-five days gave 60.14 pounds of butter fat and

1424.4 pounds of milk. Stated in pounds of butter, this would be three pounds of butter a day for twenty-five days.

There is no guess work about such records. A disinterested party is present at every milking, weighs and tests all milk drawn and swears to the statement made.

These cows are Holsteins and belong to the dairy herd of L. T. Baker, of Sikeston. A number of other cows in this same herd are being tested and Mr. Baker is confident that these records will be broken.
